À propos de la CELC,
l'autorité fédératrice de la filière Lin
dans le monde

La Confédération Européenne du Lin et du Chanvre [CELC] est l'unique organisation européenne agro-industrielle à regrouper et fédérer tous les stades de production et de transformation du lin et du chanvre. Fondée en 1951, elle est l'interlocutrice privilégiée de 10 000 entreprises implantées dans 14 pays de l'U.E., maîtrisant la fibre, de la plante au produit fini.

Seule organisation européenne de référence, la CELC encourage le dialogue avec les pouvoirs publics nationaux et européens. Lieu de réflexion et d'analyse conjoncturelle, de concertation et d'orientation stratégique, la CELC anime une filière d'excellence dans un contexte mondialisé.

Une mission garantie par EUROPEAN FLAX®, certification de traçabilité du lin fibre de qualité cultivé en Europe de l'Ouest, fibre éco-responsable tous débouchés dont chaque étape de transformation est auditée par l'organisme indépendant Bureau Veritas. Une traçabilité qui, lorsqu'elle est assurée par des entreprises européennes à chaque maillon de la chaîne jusqu'au fil et au tissu, se labellise MASTERS OF LINEN®, marque déposée et club d'excellence textile.

La CELC crée l'environnement favorable à la compétitivité des entreprises industrielles grâce à un triptyque d'actions d'information, de défense et de promotion. Une stratégie multicanale qui s'inscrit à l'international en stimulant l'innovation et en s'appuyant sur les performances de fibres naturelles aux qualités environnementales confirmées. Un corpus d'actions animé, produit et promu par sa plate-forme dédiée CELC Développement

About CELC,
The federating authority of the flax/linen
agroindustry in the world

The European Confederation of Flax and Hemp (CELC) is the only European agro-industrial organisation federating all the stages of production and transformation of flax and hemp. Founded in 1951, It is the privileged spokesperson for 10,000 European enterprises across 14 countries, overseeing fibre development from plant to finished product.

The only European organisation of reference, CELC encourages dialogue with national and European public authorities. As a think tank and place of market analysis, dialogue and strategic orientation, CELC presides over an industry of excellence in a globalised context.

This mission is guaranteed by EUROPEAN FLAX®, the traceability certification of premium-quality flax fibre sustainably grown in Western Europe, for all its applications with each transformation stage audited by third party Bureau Veritas. This traceability, when each processing step is performed by European companies until yarn and fabric, is certified as MASTERS OF LINEN®, a registered trademark and a club of textile excellence.

CELC creates an environment conducive to industrial enterprise competitiveness following a three-pronged approach comprising information, defence and promotion. This internationally-focused multichannel strategy stimulates innovation and builds on the performance of natural fibres with proven environmental qualities. A corpus of actions facilitated, produced and promoted by its dedicated platform CELC Développement.
